CATALOGUE

“excellent”

Ares Kinesiology tape has received the highest rating after dermatological skin test for primary skin irritation and hypersensitivity of human subjects.

1

German Dermatest's highest rating received!

Dermatest is an authoritative German research institute and laboratory for allergologic and dermatologic researches providing reliable results.

Ares Kinesiology tape has received the highest rating after dermatological skin test for primary skin irritation and hypersensitivity of human subjects.

“Excellent” is the highest rating of skin irritation test.

“excellent”

This product did not lead to toxic-irritative intolerance reactions in patch testing carried out in accordance with international guidelines.
The preparation can therefore be declared as dermatologically tested.

2

Cytotoxicity & Sensitization Test Completed!

1. Cytotoxicity test & sensitization test completed by KTR. KTR is a renowned Testing & Research Institute in Korea.

There was no skin sensitizing potency or irritants detected from Ares Kinesiology tape.

2. All made in Korea! Strict raw material choice and comprehensive production process are all done in Korea.
3. Plus, Ares Kinesiology tape is FDA, Korea FDA and CE certified.
4. All our goods are produced under ISO 9001& 13485 qualified facilities.

3

What is ARES Tape?

Ares Kinesiology Tape is an elastic therapeutic and sporting tape for Kinesiology Taping Method, which is worldwide technique being used in many sporting fields as successfully as with patients in a physiotherapeutic setting.

Ares Kinesiology Tape is designed to the same thickness and elasticity of the epidermis (outlayer) of the skin with longitudinal stretch.

Ares Kinesiology Tape is used in treatment of muscle, fascia and tendon symptoms and for performance enhancement by way of continuous receptor stimulation.

Natural healing process is therefore instantly enhanced due to improved circulation in the taped area.

- *Treat sport injuries and general muscle pain*
- *Promote blood / lymph circulation and healing*
- *Support for muscles and joints*
- *Prevent injuries and fatigue*
- *Enhance performance*

<Condition after Taping Method with Ares Tape>

1. ARES tape lifts the skin with convolution effect.
2. Interstitial space gets enlarged.
3. Blood/ lymph circulation is improved.
4. Inflammation reaction is reduced.
5. Muscle activities are enhanced with reduced pain.

4

Physiological Effect

When a muscle is inflamed, swollen, or stiff, the space between the skin and the muscle is compressed, resulting in constriction and congestion to the flow of lymphatic fluid and blood circulation. This compression applies pressure to the pain receptors located in the space between the skin and the muscle, which in turn relays discomfort signals to the brain resulting in the sense of 'pain' of affected area.

If you stretch the skin of the affected area before the application of **Ares Kinesiology Tape** the taped area will form wrinkles when the applied area is back to its normal or neutral position. The wrinkling effect formed by **Ares Kinesiology Tape** is essential since this lifting of the skin creates more space for lymph and blood flow. Therefore the lymph drainage as well as blood circulation in the affected area can be improved effectively through taping application.

Eventually, the friction between the tissues beneath the skin is decreased due to the promoted movement of lymphatic fluid and blood circulation. Pain is reduced because the pressure on the pain receptors is lessened. The end results are believed to be reduced muscle fatigue, increase in range of motion (ROM), and better quality of muscle contraction.

5

Key Advantages

1. Free from itchiness, rash, swelling and other skin troubles during application and after-use
2. Super light feeling and comfortable wearability without feeling of irritation
3. Lint-free and high quality cotton fabric used
4. Water-resistant and stable adhesive strength even after shower and bath
5. Excellent adhesive stability free from corners/edges coming off during application
6. Beautiful and trendy colors being everyone's preference
7. No repulsive odor at all times
8. Muscular-look and trendy package designs and settings carefully designed by professionals
9. Easy to use Mini Guide always comes along with every roll
